## Win a MiSMo luxury facial

READERS have the chance to win a rejuvenating salon facial and a beauty care pack, featuring a moisturiser and MiSMo's new revolutionary A-C-E vitamin serum.

MiSMo managing director Irene McDonald said the vitamin serum was a concentrated anti-ageing treatment, which worked against the signs of sun damage.

"In eight weeks, the visibility of wrinkles and lines on the hands are fewer and veins are less noticeable," Mrs McDonald said.

MiSMo refuses to use harsh ingredients such as propylene glycol, parabens or artificial fragrances — instead, they use grapefruit seed extract as a natural preservative.

Split Ends Hair Design owner Kerrie Wells said the MiSMo salon facial was "absolutely gorgeous".

"It exfoliates and revitalises the skin, while you relax," Mrs Wells said.
